# SAVE ON COSTS AND TURNAROUND TIME BY PRINTING HIGH QUALITY OFFICE AND MARKETING JOBS IN-HOUSE ON ONE ENGINE

## OUTSTANDING PRINT QUALITY

Achieve consistent, vivid color output on a wide range of media, without compromising productivity. The answer for demanding users, the imagePRESS C750 delivers stunning image quality at up to 75 impressions per minute. The results are consistent reproductions of corporate colors, precise 2400-dpi resolution, and highly accurate, front-to-back registration.

Broad media flexibility with auto-duplexing of media up to 110 lb. Cover and in-line finishing capabilities provide for high-value, in-house printing such as brochures on coated paper, stapled and/or punched presentation handouts, business cards on heavier stock, corporate invitations on specialty media, letters and envelopes that can be both custom-designed and printed in-house for targeted mailings.

Consistent with Canon's long-term commitment, this press offers thoughtful, eco-conscious solutions. It not only meets ENERGY STAR® standards, but it's also rated EPEAT Gold and is RoHS compliant. The imagePRESS C750 can help you reduce your organization's environmental impact and decrease energy costs.

## ENVIRONMENTAL CONSIDERATION

## A CHOICE OF CONTROLLERS WITH EXCEPTIONAL EASE OF USE

### imagePRESS Printer Kit

#### EMBEDDED CONTROLLER FOR DEMANDING ENTERPRISE ENVIRONMENTS

Designed for operations that use a printer driver workflow and don't require job or queue management tools, the imagePRESS PrinterKit is a cost-efficient choice for a genuine Adobe® PostScript® controller.

Intended to provide the ease you need in today's demanding business operations, the interface boasts many customizable, streamlined features. And with Canon's innovative MEAP® platform, you can incorporate advanced scanning applications, cost recovery, document distribution, follow-me printing, and other customized applications.

### imagePRESS Server G100

#### FIERY TECHNOLOGY HELPS IMPROVE EFFICIENCY AND PERFORMANCE

The imagePRESS Server G100 has an intuitive print management interface for Fiery servers. The Command WorkStation® centralizes and helps simplify job management. Operators can monitor and direct jobs, automate workflows, and preview and adjust documents.

The powerful spot color and color management utilities help remove the guesswork from color matching, offering a simple interface that makes it fast and easy to modify colors.
